MAINTENANCE INFORMATION

The worktops and units require very little maintenance, the worktops being laminate faced can be wiped over with a damp cloth or for more stubborn marks a cream cleaner e.g. 'Cif*' can be used.

The unit frontages are also finished in laminate and the same procedure as the worktops would apply, the handles being nylon can also be wiped clean with a damp cloth.

Unit carcasses can also be cleaned with a cream cleaner but excess water should be avoided.

The door hinges and drawer runners do not require any maintenance.

Please note that strong acid detergents should be avoided as this could discolour the laminate, and any excess water would affect the stability of the board material.

Cif is a registered trademark of Unilever PLC
